## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Liebscher (US patent 3,638,267).

The patent to Liebscher discloses the invention, a manual floor sweeper, as is claimed. Liebscher discloses a housing (5), a brush roller (6) rotatably mounted within said housing, a first drive member (11) fixed to the brush roller, a second drive member (10) rotatably mounted with the housing and engaging with the first drive member and a drive carriage comprised of a drive wheel (7) rotatably mounted with the housing and positioned about the first and second drive members. The drive wheel includes an inner drive ring (9). The carriage is movable between positions where it engages the first drive member (11) and the second drive member (10) to rotate the brush roller in the same direction.

*Allowable Subject Matter*

Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

*Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
